4 Choose the correct words to complete the sentences.

We can help the environment by ⁰*saving/wasting/recycling*
energy. Two ways to do this are by switching machines
off when we aren't using them and by ¹*using/sharing/
driving* public transport instead of our cars. We can also
try to cause less pollution. We should ²*reuse/save/reduce*
our consumption and ³*recycle/reuse/reduce* things instead
of throwing them away. For example, put old CDs under
your coffee cup and protect the table and use old clothes
to clean the floor. And of course, ⁴*recycle/replant/reduce*
plastic, glass and paper. Finally, ⁵*recycle/plant/share* trees:
you will be helping the environment and making it more
beautiful as well.

1 _____

The land in Bangladesh is perfect for growing food and that's one reason the country can feed its huge population. However, the land is flat, and water from the sea and the River Ganges often covers large areas of the country. As a result, people often lose their homes. In 1987–1988, over 4,000 people drowned after heavy rain.

2 _____

Chichester is a small town in the south of England and although it is near the sea, there is no real danger from a rise in sea level. There is one problem, though. Every morning as people go to work and every evening as they return home, the roads are full of cars, and journeys which should take a few minutes can take over an hour.

3 _____

Chile is an amazing country, with the driest desert in the world in the north and 7,000-metre-high mountains in the east. Its capital, Santiago, is a huge city which lies in a valley with mountains around it. In the winter the air gets stuck in the valley and, like Los Angeles, the city suffers from very bad smog.

4 _____

Nigeria is one of the biggest countries in Africa. In the south there are rainforests, but in the north it is much drier. In fact, it is now so dry that the land is slowly dying. Every year, the Sahara desert gets bigger and farmers and their animals have to move further south. This means less land to live on and less food for the people.

5 _____

The north-east of India is one of the most overcrowded parts of the country. As the population grows, people have to move further from the cities to find a place to live and to grow food. They cut down forests and destroy the habitat of the animals that live there. Some, like the tiger, are protected. Others are not so lucky.

6 _____

The Pacific is the biggest ocean in the world. However, a huge area of the ocean suffers from a terrible problem. It is full of plastic and other waste. This waste floats just under the surface, like a huge island. It pollutes the water and forces the fish and other wildlife to move to other parts of the ocean.
