People have always looked for adventure. Now, however, a new extreme sport seems to appear every week. What are the latest ways people have found to give themselves the ultimate thrill?

One way is horse boarding. All you need is a skateboard, a horse and two people. The rider of the horse makes the horse run and the person on the skateboard is pulled along. ¹ ____ Well, it isn't. First of all, a horse can go from standing still to fifty kilometres an hour very quickly, so the increase in speed is very sudden. Secondly, horses are animals. Boats, motorbikes and other machines can be controlled, but horses are much more difficult. ² ____ They may stop suddenly, change direction or even decide to jump over something.

If you're not keen on working with animals, there are other new ideas. How about zorbing? ³ ____ The sport began back in 2000, but it has recently become more popular. A zorb is a giant plastic ball. You get in and roll down a hill. Zorbing was invented in New Zealand. ⁴ ____ Life must be dull in that country to make people come up with all these strange ways of getting excitement in their lives. If zorbing sounds too safe, here's another idea. Volcano boarding. All you need is a specially made board and protective clothes. ⁵ ____ That's where you can find the Cerro Negro mountain, a live volcano which is perfect for this sport. It's only 700 metres high, but the surface is covered in loose pieces of lava and rock. This is perfect for reaching speeds of up to eighty kilometres an hour.

⁶ ____ That's why you should make sure you're wearing a helmet and thick clothes.
